14oraitaliana nasce per dare risposte diverse a chi cerca soluzioni estetiche alternative alla ceramica tradizionale. I prodotti si distinguono per la forte originalità e rappresentano un'interessante lettura e interpretazione dei segnali della contemporaneità. Lo spirito eclettico che anima il marchio ha valorizzato la tendenza a non prediligere un unico mood ma a ispirarsi a fonti diverse e a cogliere stimoli in campi differenti quali arte, design, fashion, street style per cercare nuove armonie e nuovi equilibri estetici. Il risultato è un contenitore di materiali eterogenei, versatili, divertenti, a volte stravaganti: una sintesi di tradizione, tecnologia e innovazione in cui gres e materie naturali sono in dialogo.

14oraitaliana was created to give different answers for those looking for alternative aesthetic solutions to traditional tiles. Products stand out for their strong originality and represent an interesting way to interpret contemporary signs. The eclectic spirit lighting up the brand shows off the flair not only to prefer one mood but to inspire to different sources and to seize inspirations from different fields, such as art, design, fashion and street style to create new harmonies and new aesthetical balances. The result is a container of heterogeneous, versatile, fun and sometimes extravagant materials: a synthesis among tradition, technology and innovation where porcelain stoneware and natural materials are in a dialogue.
